Dear Dr. Martin,

Thank you for your letter to the Mayor of Stockholm, Mr. Sten Nordin. On behalf of the Mayor, I have been asked to answer you.

Stockholm is growing rapidly and we need to build apartments. The area you speak of is a former industrial site that has not been in use for many years.

We are, of course, aware of the historical heritage of the Gasklockor ("Gas bells") by Ferdinand Boberg. That is why we have decided to preserve two of the most distinctive Gasklockor. One of them is to be converted into a cultural stage. The future function of the other one is not decided yet.

Sincerely,
